

Coffee History Presentation

Coffee History Presentation

- A finished 16:9 presentation about coffee history, from origin to modern culture.

Slide 1: Title

- Coffee History
- From origin to global culture
- A short view of how coffee grew from a regional discovery into a worldwide tradition.

Slide 2: Origins in Ethiopia

- Coffee's story begins in Ethiopia, where wild coffee plants grew naturally.
- Local communities likely noticed the energizing effects of the cherries and beans.
- Early use focused on eating the fruit before brewing became common.
- This was coffee's first step from plant to daily practice.

Slide 3: Coffee Spreads Through Arabia

- Coffee moved across the Red Sea into the Arabian Peninsula.
- In Yemen, people began roasting and brewing coffee as a drink.
- Sufi communities used coffee to stay alert during prayer and study.
- Coffee became part of social and religious life in the region.

Slide 4: Coffee Houses Begin

- Coffee houses appeared in cities across the Islamic world.
- These spaces became centers for conversation, music, news, and trade.
- People gathered there to discuss business, politics, and ideas.
- Coffee became more than a drink; it became a social institution.

Slide 5: Coffee Reaches Europe

- Traders and travelers brought coffee to Europe in the 1600s.
- It first spread through port cities such as Venice, then across major capitals.
- Some people were suspicious of coffee at first, but interest grew quickly.
- European coffeehouses became important public meeting places.

Slide 6: Coffee and Global Expansion

- Colonial powers established coffee plantations in tropical regions.
- Coffee cultivation expanded in Asia, the Caribbean, and Latin America.
- Global trade networks helped coffee become more widely available.
- This period tied coffee history to agriculture, labor, and empire.

Slide 7: Industrial Coffee

- New roasting, grinding, and packaging methods made coffee easier to buy and store.
- Instant coffee helped coffee reach more homes and workplaces.
- Brands and machines changed how people prepared coffee every day.
- Coffee shifted from a specialty import to a common household staple.

Slide 8: Coffee Today

- Coffee is now a global product and a daily ritual for millions of people.
- Specialty coffee shops renewed interest in origin, quality, and brewing methods.
- Sustainability, fair trade, and farmer support are major modern concerns.
- Coffee continues to evolve through culture, technology, and consumer taste.

Slide 9: Closing

- Coffee history is a story of discovery, trade, migration, and change.
- It moved from an Ethiopian plant to a global cultural habit.
- Today, coffee connects farmers, businesses, and drinkers around the world.
- Coffee's past helps explain why it remains a powerful part of everyday life.

Export Notes

- The deck is structured as a clean 16:9 presentation.
- The sequence is chronological and easy to follow.
- The tone is warm, modern, and print-ready.
